

# MODULE Image Gallery

A flexible and functional module for your online imaging requirements

THE CONTEGRO IMAGE GALLERY MODULE IS ESSENTIAL FOR THOSE BUSINESSES THAT REQUIRE MANAGEMENT OF A LARGE NUMBER OF IMAGES THAT WOULD BENEFIT FROM BEING SHOWCASED WITHIN A GALLERY FORMAT. PACKED FULL OF SIMPLE TO USE FEATURES THIS MODULE WILL ENHANCE THE SOPHISTICATION AND APPEAL OF YOUR WEBSITE.

The Image Gallery module allows site visitors to easily navigate between photos via thumbnails of each photo in the gallery; users simply click on the small image to view the full-size image. Conveniently, it has two customisable thumbnail layouts to choose from; a table structure or a scrolling slideshow.

## Suitable Applications

- Extensive multiple product imagery
- Scenery shots for the tourism industry
- Staff clipart logo and artwork library
- Photo library
- Press/media product gallery
- Art, design and sculpture galleries

## Key Features

### ➤ Hassle Free Image Optimisation

The Image Gallery module simplifies the image optimisation process during upload by allowing you to set the maximum width, height and resolution of the image. This automated process makes it easy to upload images directly from a digital camera or high resolution version, while ensuring that your images are optimised for the web and free from distortion. Depicting your products in the best possible light.

### ➤ Efficient Uploading of Multiple Images

Contegro's Image Gallery allows you to upload multiple images at one time, allowing for increased productivity when working with large numbers of images.

### ➤ Precise Position Management

The Position Manager feature allows you to adjust the order of images as they appear within the public site.

### ➤ Branded Watermark

Essential for those companies that need to protect their images, Contegro's Image Gallery module enables a variable combination of both text and imagery to produce a 'watermark' effect. Your company's name and logo can be superimposed onto the picture, protecting against copyright infringement.

### ➤ 'New' Image Notification

Draw attention to new images by assigning them a 'new image' icon that will remain attached to the image for a predefined length of time. This feature enables your customers to recognise new content on your site and is perfect for showcasing new products.

The Image Gallery has two thumbnail layouts to choose from - tabular or scrolling
